

Brand Guidelines 2026

MERIDIAN GOODS & SUPPLY

Identity, tone and application rules for the Meridian house brand.

1. Logotype

The primary logotype pairs the peak mark with the MERIDIAN wordmark. Minimum clear space equals the height of the mark on all four sides. Minimum reproduction width is 32 mm in print and 120 px on screen.

2. Colour

Primary is Deep Pine #1f4f47. Secondary is Sage #7a8b87. Neutral text is Slate #1d2b28. Tints below 40% are reserved for background fills and must never carry the logotype.

3. Typography

Headlines set in the semibold weight at 2 pt letter-spacing. Body copy sets at 11 to 13 pt with 1.7 line height. Never set body copy in the display weight.

4. Photography

Product photography is shot on a neutral seamless ground with a single soft key from camera left. Lifestyle imagery favours daylight and unstyled interiors. No hard shadows, no colour gels.

5. Voice

Plain, specific and unhurried. Describe the material and the making. Avoid superlatives, avoid exclamation marks, and never claim a benefit the datasheet does not support.
